Can't thank these guys enough! Somehow lost my car key and couldn't find it ANYWHERE. Gave them a call at 6:30 in the morning and the locksmith was there within 45 minutes, and was able to get me a replacement key for my car in 15 minutes! Extremely reasonable pricing, too, compared to the other places I've seen. You guys are lifesavers! Thank you!

I have used NoBull Locksmiths now for two of my vehicles both were turned away by the dealer after two weeks of not being able to figure out what was wrong with them. Let me tell you these guy are good, he looked at my car for 10 minutes and pulled a module out from under the dash; turns out it was covered in corrosion and causing my vehicle to throw all sorts of codes leading my mechanic and the dealer to all the wrong places. John found the problem in no time. I'll be calling him when the new module comes in to have him program it. Overall I Highly recommend NoBull Locksmiths!

Prompt, professional, not the cheapest but less expensive than than the dealer. But with the price he charges you certainly get the most knowledgeable and experienced automotive locksmith for your buck. I'm very glad I went with pro local after hearing how difficult and expensive of a key make my Volvo was; my car probably would have needed up at pick and pull if left in the hand of amateurs. Thanks again John you did great work. Highly recommend for any Volvo or Saab!!!

The key fob was not communicating with the vehicle so my car would not start . I called John from Pro Local Locksmith LLC and he came to my home within an hour to address the issue with my vehicle . He was very friendly, professional and got the job done quickly ! The service he provided was excellent and i would highly recommend his service to others

2011 volkswagen cc. I bought the car used and the dealer only provided one key. I was to lazy to go back and get a second key. 8 years later my girlfriend looses the only key to the car. Within 2 hours John shows up and programs 2 keys! So far so good. Excellent service and great value.

Pro local locksmith is the best !!! Prompt and excellent service. I lost the only key to my car they were there within 30 minutes and had the job done so fast. I hope I never loose another key but I know who to call.

Not sure what other reviewers are talking about, they came out and checked the job out before they agreed to do it. They were able to make a new key for my BMW with zero damage. Go with pro local.

The first company I called the guy couldn't open my door without damage it, then he will charge me for the service of open it and installation for a new lock that he will provide. Total I'm looking at \$200. I liked my lock and don't want to damage it so I decide to call another company. John answered my call and very confidence that he can open it. 5 minutes and I'm not even kidding, 5 minutes they opened my door. They are life saver. Really appreciated. And the price is very fair.

I was working late on a job and didn't notice my van key fell out of my pocket. When I finished the job and went to leave my van was locked and my key was gone. Someone picked up the key and kept going. I called at 2am and John was on site within 15 minutes. I had a new key and drove off the job 45 minutes after he showed up!
